THIS VOLUME IS DEDICATED TO

Leslie Edward Wostall Codd (1908—)

D.Sc.

(*Director of the Botanical Research Institute, Department of Agricultural Technical Services.*)

Editor of Flowering Plants of Africa and Bothalia; editor of Flora of Southern Africa. Well-known for his book "The Trees and shrubs of the Kruger National Park" and for his revision of the South African species of *Kniphofia*, *Schotia*, *Albizia*, *Cloeme* (with L. E. Kers), Apocynaceae and researches in Labiatae.

He has held executive positions in several scientific societies: in 1958 he was president of Section B of S2A3; 1961 president of the South African Biological Society and in 1968 the first president of the South African Association of Botanists. One of his special interests has been the Pretoria National Botanic Garden, which he has seen developed from practically bare veld to one of the premier botanic gardens in South Africa.
